

PRODUCT DESCRIPTION SHEET

TURBO

TUFF STUFF TECHNOLOGIES

CURE PROFILE

Product Description

Turbo is a 2 part solid ceramic wear resistant material that cures at room temperature in 15 minutes to form an extremely hard, abrasion, and corrosion resistant coating. The material adheres with very high peel strength to metal, concrete, and other substrates. Turbo is formulated with over 70% sapphires and carbides that rate at over 9.0 on the MOHS scale of hardness. The product is non dangerous and fully cures within 3 hours.

Instructions for Use

1. Clean surface of application
2. Tear open Part B bag
3. Mix with Part A (2:1) Part A: to Part B
4. Knead vigorously both parts together until consistent colour is reached for at least one minute
5. Apply to surface and press hard for best adhesion
6. Can be used on wet surfaces
7. Product goes hard in 5 mins
8. Full chemical cure after 3 hours is reached
9. Do not leave unused Part B open in container or bag

Clean Up

While mixture is workable, clean tools and scrapers with soapy water or thinners.

Product Storage

- Product should be stored in a clean dry environment.
- Shelf life is 1 year for unopened container. In cold environments or conditions, mixture may be difficult to work. If this occurs, remove to a warmer temperature or gently heat to improve workability.

Health Risks

Irritating to the skin. Irritating to the eyes. May cause skin sensitisation. Emits slight sulphur odour.

Safety Precautions

As a matter of good industrial hygiene, gloves, safety glasses, and protective clothing should be worn when handling Turbo. Use only in well ventilated areas. If there is insufficient ventilation use approved respiratory equipment. Avoid contact with skin, eyes, and the inhalation of vapours and mist. Keep out of reach of children.

First Aid

Inhalation – If large quantities are inhaled, remove victim to fresh air. Get emergency medical attention. Give oxygen if necessary.

Skin – Remove from exposure. Wash skin thoroughly with water and soap.

Eyes – In case of eye contact, immediate flush with water for 15 minutes. Seek immediate medical attention.

Ingestion – If swallowed do not induce vomiting. For advice, contact a Poisons Information Center, phone in Australia 13 11 26, or a doctor immediately.

For further information refer to the Materials Safety Data Sheet (MSDS) from Tuff Stuff Technologies office or phone Chemwatch 1800 039 008.
